Time Equals Money...

Solarflex...a unique pre-wired flexible solar conduit system.

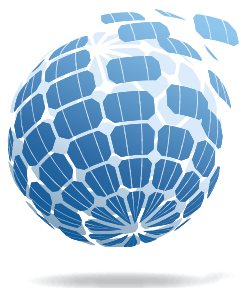

PV Connections introduced the innovative time-saving pre-wired conduit system called Solarflex back in 2013, quickly adopted by installers nationwide this product allowed them to adapt to the new standards and save time on their installs. Being already pre-wired Solarflex saves you the hassle of feeding cables up conduit.. A job that no one likes.

With Solarflex.. "the hard works already done"
