The SunSnake

A game-changing pre-wired flexible solar conduit system.
Proudly made in Australia by Aus Solar Kits.

The SunSnake is built for speed, simplicity, and reliability.
This pre-wired, flexible solar conduit system is designed to save you time, effort, and frustration on every install.

Forget the hassle of feeding cables through rigid conduit.
The SunSnake comes ready to roll. Just run it through and keep moving. It slides smoothly into place, making tricky installs quicker, cleaner, and easier than ever before.
